

Leadership Whitley County Presents

LEADERSHIP PROGRAM

Sessions Monthly//September 2020-April 2021

For twenty years, Leadership Whitley County (LWC) has helped develop more than 350 servant leaders.

Each year, more than 20 participants are chosen to participate in the seven month long program designed to empower and encourage servant leadership principles.

LWC is focused on leadership development and exposes participants to various community aspects such as:

- Local government
- Volunteer opportunities
- Economic development
- Non-profit roles
- Community relations and more

When we grow, attract and retain servant leaders in our communities, who care about and invest in something greater than themselves, new ideas are born, business improves and community satisfaction increases.

Employers should select candidates who are living or working in Whitley County, who are involved or show interest in community involvement and who would represent their organization well while participating in this program and beyond. **The deadline to apply for Class 20 is June 30, 2020.** An application can be found online at whitleyedc.com/lwc or by emailing lwc@whitleyedc.com.
